Intro to Electronics
Source (Battery)

- ~ 5 V
- ~ 3.3 V
LED (Bulb)

- **Light Emitting Diode**
  - Directional!
  - Long end = +
  - Short end = -
Switches / Buttons
Resistors

- 220 Ohm
- 1 K Ohm
- 10 K Ohm
Variable Resistors
Bread board (Proto board)
Build Things!
Simple LED Circuit
Simple LED Circuit
LED With Button
LED With Variable Resistor
LED with Transistor Switch
What Else Can You Build? :)
